EXPERIENCE

wkrm: GetThereATX – Austin, TX

Designer

Aug 2026 – Present

- Conduct digital and face-to-face user research surveys and interviews to understand commuter experiences and transport information sources in Austin
- Revamp GetThereATX by combining real user insights with goals outlined in Austin Transportation Demand Management's 2025-2029 Strategic Plan
- Lead team discussions and planning of research activities, ideation, and digital prototyping

STERIS – Mentor, OH

User Interface/Experience Intern

May 2026 – Aug 2026

- Audited legacy UI components and patterns across 7 products in the STERIS Procedural product suite to kickstart consistency and scalability initiatives
- Built a centralized design system by creating 310 Figma components and documenting standard interaction patterns to improve cross-product UX cohesion
- Worked with senior designers, engineers, and marketing to align work processes, technical requirements, and business goals with end user needs

wkrm: Austin Parks and Recreation – Austin, TX

Content Strategy Designer

Jan 2026 – April 2026

- Researched preexisting park signage and storytelling conventions to inform signage hierarchy decisions and written content guidelines
- Defined a unified content strategy with standardized sign layouts, tone and writing conventions, and 25+ impact-oriented sustainability stories
- Collaborated with cross-functional teams to create and document a flexible, extensible signage system that fulfills SITES sustainability certification requirements

Convergent: AdTalk – Austin, TX

Product Designer

Sep 2025 – Dec 2025

- Researched preexisting park signage and storytelling conventions to inform signage hierarchy decisions and written content guidelines
- Defined a unified content strategy with standardized sign layouts, tone and writing conventions, and 25+ impact-oriented sustainability stories
- Collaborated with cross-functional teams to create and document a flexible, extensible signage system that fulfills SITES sustainability certification requirements

PROJECTS

corn.design – Portfolio Website

Nov 2025

- Wrote case studies and designed image and graphic assets and typography and layout conventions to display past work
- Used HTML, TailwindCSS, and React to build the website, leveraging breakpoints and components to develop 10 responsive pages of content with animations
