

EDUCATION

University of Texas at Austin – Bachelor of Arts, Design

May 2027

- Relevant Coursework: Intro to Design Research, Intro to Interaction Design, Interaction Design Studio

SKILLS

Tools: Figma, Adobe XD, Illustrator, Photoshop, InDesign, After Effects, Miro, Photography, HTML, Rhino, React, TailwindCSS, Git/Github

Methods and Frameworks: Design Research, UX/UI Design, UX Research, Design Systems, Typography, Layout, Prototyping, Wireframing, Sketching, Agile/Scrum, Motion Graphics, Content Design and Writing

Certifications: Google UX Design

EXPERIENCE

WKRM: Austin Parks and Recreation – Austin, TX

Content Strategy Designer

Jan 2026 – April 2026

- Conducted desktop and field research to understand existing park signage structures and sustainability storytelling conventions
- Worked closely with team members to define a new signage content library including layout, content tone and writing conventions, and over 18 unique use cases
- Collaborated with cross-functional teams to create and document a flexible, expandable signage system that meets SITES sustainability certification requirements

Convergent: AdTalk – Austin, TX

Product Designer

Sep 2025 – Dec 2025

- Prototyped marketing dashboards to effectively communicate sales conversions and KPIs to convenience store owners and distributors such as Pepsico
- Designed and iterated on user flows, design system components, and UI and identity patterns including typography and color guidelines
- Worked with cross-functional teams to present a thoughtful, user-centered MVP to stakeholders

Greenback Club – Remote

UI/UX Designer

Jun 2025 – Present

- Prototyped a rewards app in Figma incentivizing users to recycle cannabis packaging and waste at local dispensaries around Denver
- Worked closely with founders to define and iterate on key user flows for multiple user profiles
- Developed identity guidelines and assets, including color tokens, typography, and site elements

PROJECTS

corn.design – Portfolio Website

Nov 2025

- Wrote case studies and designed image and graphic assets and typography and layout conventions to display past work
- Used HTML, TailwindCSS, and React to build the website, leveraging breakpoints and components to develop 10 responsive pages of content with animations

Cradlelist – A marketplace for teen and first-time parents

Apr 2025

- Used research about teen parents' needs to inform 3 prototype iterations for a marketplace website for childcare supplies in Figma
- Designed branding assets and guidelines to convey a friendly, playful brand identity.

Facebook Customizable Homepage – An interactive Figma prototype

Mar 2025

- Collaborated with 3 designers to survey and interview 9 users, gather insights on social media use, and define friction in the Facebook user flow, and translating insights into actionable design guidelines
- Developed 3 iterations for an interactive prototype in Figma for a Facebook feature allowing users to personalize content layout and usable features to reduce clutter on their home pages

HONORS

Dell Scholar – University of Texas at Austin

2023

Character Illustration/Commercial Design 1st Place – LCISD Digital Festival

2023

National Merit Scholarship Finalist – NMSC

2022

EDUCATION

University of Texas at Austin – Bachelor of Arts, Design

May 2027

- Relevant Coursework: Objects and Spaces, Typography and Games, Print Studio, Project Studio

SKILLS

Tools: Figma, Illustrator, Photoshop, InDesign, After Effects, Miro, Photography, Large-format Printing

Methods and Frameworks: Typeface Design, Typography, Layout & Typesetting, Motion Graphics, Illustration, Design Thinking, Design Research, Design Systems, Branding and Identity, Social Media Graphic Design, Environmental Graphic Design, Packaging Design, Content Design and Writing, Agile/Scrum

Certifications: Google UX Design

EXPERIENCE

WKRM: Austin Parks and Recreation – Austin, TX

Environmental Graphic Designer

Jan 2026 – Present

- Conducted research to understand existing park signage and sustainability storytelling conventions
- Worked closely with team members to define a new signage content library including layout, content tone and writing conventions, and over 25 unique use cases
- Collaborated with cross-functional teams to create and document a flexible, expandable signage system that meets SITES sustainability certification requirements

Convergent: AdTalk – Austin, TX

UI/UX Designer

Sep 2025 – Dec 2025

- Prototyped marketing dashboards to effectively communicate sales conversions and KPIs to convenience store owners and distributors such as Pepsico
- Designed and iterated on user flows, design system components, and UI and identity patterns including typography and color guidelines
- Worked with cross-functional teams to present a thoughtful, user-centered MVP to stakeholders

Texas Chinese Student Association – Austin, TX

Publicity Director

Apr 2024 – May 2025

- Designed 25 social media graphics, 2 production-ready sticker designs, and 1 tote bag design to support branding and outreach efforts
- Collaborated with fellow board members to resolve organizational conflicts and maintain a productive, team-oriented environment
- Created an online merchandise ordering system that increased sales by 40%

PROJECTS

Cradlelist – A marketplace for teen and first-time parents.

Apr 2025

- Prototyped 3 iterations for a marketplace website for childcare supplies in Figma based on research about teen parents' needs
- Designed branding assets and guidelines to convey a friendly, playful brand identity

UFO Nightlight Packaging – A discursive packaging design prototype.

Nov 2024

- Designed alternative packaging for a nightlight to bring awareness to sleep deprivation
- Developed a custom packaging die-cut, and printed, cut, and assembled a physical prototype, leveraging a Pepper's Ghost illusion to add a creative, playful interactive element

me when the meme got type – A book studying typography in memes.

Dec 2024

- Conducted in-depth research on typography within memes, analyzing its role in shaping meme culture and influencing media consumption
- Designed and typeset the layout using Adobe InDesign to ensure clear readability and a visually engaging presentation
- Printed and hand-bound the book using an Epson wide-format printer
